Particular to the Parish Emergency Plan

The aim of this plan is to allow the local community to support itself on a short term basis, in an emergency which affects the community, when normal response by the emergency services are delayed or overwhelmed due to the scope or nature of an incident. This would include:

- the method of alerting residents if/when certain areas in the Parish were judged to be in danger,
- a means of evacuation while still possible,
- emergency shelter, first aid, sleeping and catering facilities, emergency power and portable cooking equipment,
- transport both land and water (flooding may be the main emergency),
- availability of contractors equipment, and numerous other considerations.
